POLICE CLEARANCE CERTIFICATE

A police certificate is a certification by appropriate police authorities stating what their records show concerning an applicant, including all arrests, the reasons for the arrests, and the disposition of each case of which there is a record. The certificate must cover the entire period of your residence in the jurisdiction of the issuing police authority.

You must provide a police certificate if any of the following circumstances apply:

1. If you hold a Hong Kong passport or document of identity (i.e. have the right of abode in Hong Kong) and have resided in Hong Kong for 6 months or more when you were 16 years or older, you must provide a Hong Kong police certificate. The certificate must cover the entire period of your residence in Hong Kong.
2. If you hold a Macau passport or travel permit (i.e. have the right of abode in Macau) and have resided in Macau for 6 months or more when you were 16 years or older, you must provide a Macau police certificate. The certificate must cover the entire period of your residence in Macau.
3. If you have lived in your country of nationality (e.g. Mainland China, Taiwan, Philippines, Singapore, Canada) for 6 months or more when you were 16 years or older, you must provide a police certificate from that country. The certificate must cover the entire period of your residence in that country.
4. If you lived in a country other than your country of nationality for more than 12 months and you were 16 years or older at that time you must provide a police certificate from that country.
5. If you were arrested for any reason at any age you must provide a police certificate from the relevant jurisdiction documenting the arrest.

Note that residency in a country does not necessarily need to be continuous. Short times outside the country (e.g. temporary visits back to your home country, school breaks, holidays etc.) do not break this residency. For example, a college student who studies for four years in Canada for nine months each year but returns to Hong Kong during summer breaks would still need a police certificate from Canada even though she did not live in Canada for a continuous 12 months.

Non-U.S. police certificates for your current residence must be no more than 24 months old. If you have lived in the United States for the past 12 months, then the police certificate(s) for your foreign residences may be more than 12 months old. However, non-U.S. police certificates must still cover the entire time that you resided in other countries for more than one year.

Police certificates are not required for any periods of residence in the United States.

**MEDICAL EXAMINATIONS
FOR FIANCÉ VISA APPLICANTS**

In preparing for the interview, you will need to schedule and complete a medical examination. Before the issuance of an immigrant or K visa, every applicant, regardless of age, must undergo a medical examination which must be performed by an authorized physician. This examination can only be done by the designated physicians in Hong Kong. Examinations from other physicians or from other jurisdictions cannot be accepted. In Hong Kong the authorized physicians are:

Dr. Nicolson & Associates
14/F. Wing On House
71 Des Voeux Road Central
Central
Hong Kong
Telephone: (852) 2507-1075
Email: drnicolson@ump.com.hk

Drs. Anderson & Partners
(Quality HealthCare Medical Centre)
805-806 Wai Fung Plaza
664 Nathan Road
Mongkok, Kowloon, Hong Kong
Telephone: (852) 8200-8825
Email: booking@qhms.com

These medical examinations are valid for a specific period of time. To prevent problems due to expiration, you should schedule your medical appointments no more than four (4) weeks prior to the visa interview. The final medical reports will be ready usually within one week of the examination.

You must bring the medical examination reports with you to the visa interview. The reports must remain in their sealed envelope. If the envelopes are opened prior to the interview, the results will be invalidated and you will need to obtain new reports. [Note that for security purposes the reports will be invalidated if opened by anyone other than U.S. Consulate staff.]

What to bring to the medical appointment.

Each applicant must bring the following items or documents to the examination:

- U.S. Consulate appointment letter showing the applicant's name,
- DS-160 Confirmation Page for each family members named in the visa interview appointment letter,
- Passport,
- Five passport-size photographs,
- Payment for all required fees (please see the fee schedule below),
- Past medical reports and records (particularly if there is a history of tuberculosis or other conditions requiring routine treatment or medication),
- Prescriptions for any medications currently taken, and
- Prescription eyeglasses and/or hearing aids.

The examining physician may, at his discretion, require additional X-rays or tests to accurately evaluate your medical condition(s). You are responsible for payment of these costs, which will be in addition to those for the basic examination. All medical fees related to the examination are to be paid at the doctor's office. Children under 15 normally are not required to undergo an X-ray. However, the examining physician reserves the right to request such a test if it is deemed necessary.

What to expect at the medical examination

The medical examination will be conducted by one of the appointed panel physicians. It consists of a physical examination (eyes, ears, nose, throat, extremities, heart, lungs, abdomen, lymph nodes and skin), chest X-ray and a blood test. Children between 2 and 14 years of age are subject to tuberculin skin test. The blood test and X-ray are generally not required of persons under the age of 15.

Vaccination Requirements

Effective October 1, 2021, a vaccination for COVID-19 will be required for all K applicants. Either of the COVID-19 vaccines available in Hong Kong is acceptable to fulfill this requirement. We encourage applicants to obtain COVID-19 vaccinations in advance of their medical screening.

You are encouraged to get the vaccinations required under U.S. immigration law for immigrant visa applicants although such vaccinations are not required for K visa issuance of the fiancé visas. You will be required to prove you have received the required vaccinations to adjust your status to that of legal permanent resident following your marriage. It generally is easier to fulfill these vaccination requirements at the time of the medical examination.
