POLICE CLEARANCE CERTIFICATE

A police certificate is a certification by appropriate police authorities stating what their records show concerning an applicant, including all arrests, the reasons for the arrests, and the disposition of each case of which there is a record. The certificate must cover the entire period of your residence in the jurisdiction of the issuing police authority.

You must provide a police certificate if any of the following circumstances apply:

1. If you hold a Hong Kong passport or document of identity (i.e. have the right of abode in Hong Kong) and have resided in Hong Kong for 6 months or more when you were 16 years or older, you must provide a Hong Kong police certificate. The certificate must cover the entire period of your residence in Hong Kong.
2. If you hold a Macau passport or travel permit (i.e. have the right of abode in Macau) and have resided in Macau for 6 months or more when you were 16 years or older, you must provide a Macau police certificate. The certificate must cover the entire period of your residence in Macau.
3. If you have lived in your country of nationality (e.g. Mainland China, Taiwan, Philippines, Singapore, Canada) for 6 months or more when you were 16 years or older, you must provide a police certificate from that country. The certificate must cover the entire period of your residence in that country.
4. If you lived in a country other than your country of nationality for more than 12 months and you were 16 years or older at that time you must provide a police certificate from that country.
5. If you were arrested for any reason at any age you must provide a police certificate from the relevant jurisdiction documenting the arrest.

Note that residency in a country does not necessarily need to be continuous. Short times outside the country (e.g. temporary visits back to your home country, school breaks, holidays etc.) do not break this residency. For example, a college student who studies for four years in Canada for nine months each year but returns to Hong Kong during summer breaks would still need a police certificate from Canada even though she did not live in Canada for a continuous 12 months.

Non-U.S. police certificates for your current residence must be no more than 24 months old. If you have lived in the United States for the past 12 months, then the police certificate(s) for your foreign residences may be more than 12 months old. However, non-U.S. police certificates must still cover the entire time that you resided in other countries for more than one year.

Police certificates are not required for any periods of residence in the United States.

CIVIL DOCUMENTS AND POLICE CERTIFICATES FROM THE PEOPLE'S REPUBLIC OF CHINA

Civil Documents

All Chinese documentation to be used abroad is processed through the notary offices and issued in the form of Notarial Certificates. Notarial offices are located in all major Chinese cities and in rural county seats. Individuals residing outside of China may obtain Notarial Certificates from the notarial office with jurisdiction over the county of previous residence. Chinese relatives or friends may request issuance of certificates on behalf of someone now living abroad, although they should have specific written authorization from the interested party before they request certificates.

Notarial Certificates are available for the following life events:

- Birth
- Marriage
- Divorce
- Death

It is important to note that notarial certificates are considered secondary evidence of a live event. Applicants must provide also any available primary documentation (e.g. original birth or marriage certificates). The absence of original, primary evidence can delayed the processing of your visa application considerably.

For more information on Notarial Certificates, please see the State Department's website <https://travel.state.gov/content/travel/en/us-visas/Visa-Reciprocity-and-Civil-Documents-by-Country/China.html>

Police certificates

Applicants should apply for a certificate of no criminal record at the local Public Security Bureau (PSB) (or certain types of employers such as state owned enterprises), then make application to the notary office for a certificate based on the PSB document. Persons without a criminal record will be able to obtain a certificate to that effect. Certificates for individuals with one or more criminal convictions will list all convictions for which records still exist.

Court Records

Normally, when someone is tried by a people's court or by an organ of the executive branch of government, some record remains of the case even for a political crime. The applicant must request court records in all instances. Most court records will also indicate the original sentence, the actual sentence served and any reduction or commutation of the original sentence. Court records are generally not available for the period prior to 1949.

Military Records

Military records from the PRC are generally not available.
